

MAJOR KAMI

A

CONCEPT-NAME

« MAJOR KAMI » IS A MUSICAL IDENTITY WITH SEVERAL FACES. A SINGER IN EACH PORT .

The international and multidisciplinary collective called DAMde8 was created in 2019. To date, it brings together some thirty artists (producer, directors, musicians, sound technicians, illustrators, dancers,...).

With an idea, reinforced by the Covid constraints : one can elaborate a universe, music, a sound, without being physically together.

► A producer in Bordeaux (Denis Expert), a voice in England (S.J Hawley, singer of Massive Attack), an arranger and composer in France (Dan Burkhart), another voice in Singapore (Camille Miller, originally from Canada), the team coming from all over the world and a desire to pay homage to David Bowie with a strong electropop identity, and off we went... and a good internet connection, too !

► **Have already released 3 EPs (links at the bottom of the page) spotify/soundcloud/bancamp/ all dedicated to David Bowie**

► All these tracks are playing on many web radio stations.

► On the agenda now, a tour where we continue the idea : one sound, strong, alternative electropop 80's style, nostalgic and one voice in each port.

No big tour with the carbon footprint of a presidential plane, but a reduced team, local cooperation, the same identity for a common cause.

A way of doing things that is right for the times.
